

IRON - CARBON/CEMENTITE PHASE DIAGRAM

BEST AVAILABLE COPY

The steel colors on this chart are approximate reproductions of colors observed on a bar of steel as seen through a luminous penlight. They should be viewed under strong, low-angle room lighting conditions, 400 Lux.

Compiled by G.E. Whelan, Case Western Reserve University

Phase diagrams from Binary Alloy Phase Diagrams, Second Edition, edited by T.B. Massalski, V. Okamoto, P.B. Subramanian, L. Kaufman.
